## PROFESSIONAL SUMMARY

AWS Certified Solutions Architect – Professional with hands-on experience designing scalable, secure, and cost-optimized cloud architectures. Experienced in presales consulting, solution design, and cloud migration across AWS and multi-cloud environments (GCP, Azure, OCI). Strong background in disaster recovery, cost optimization, and aligning technical solutions with business requirements using AWS Well-Architected Framework.

---

## WORK EXPERIENCE

### Valueline Systems & Solutions Corp.

Solutions Architect | Jan 2026 – Apr 2026

Presales Engineer | May 2025 – Dec 2025

- Designed and delivered AWS cloud architectures for multiple hosting projects (LGU hosting, AWS Lightsail deployments, disaster recovery environments)
- Led solution design across compute, storage, networking, and security aligned with AWS Well-Architected Framework
- Conducted cloud migration assessments (workload analysis, dependency mapping, rehost/replatform strategies)
- Architected disaster recovery solutions using AWS Elastic Disaster Recovery (DRS), defining RPO/RTO and failover strategies
- Developed Non-Binding Indicative Estimates (NBIE) using AWS Pricing Calculator
- Delivered Proof of Concept (PoC) implementations to validate architecture feasibility and performance
- Collaborated with Sales and Product teams to deliver technical proposals and client presentations
- Provided cost optimization recommendations (right-sizing, lifecycle policies, architectural improvements)
- Performed R&D on AI-related cloud use cases aligned with business requirements

**Achieve Without Borders Inc. (Internship)**

Cloud Engineering Intern | Nov 2024 – Feb 2025

- Supported management and maintenance of ERP systems on Google Cloud Platform (GCP) using Docker, Nginx, and PostgreSQL
- Assisted in performance tuning, load balancing, and infrastructure optimization for improved reliability and scalability
- Gained hands-on experience in cloud system administration, CI/CD workflows, and containerized deployments
- Collaborated with the team to troubleshoot infrastructure issues and maintain service availability

**Concentrix CVG Philippines Inc.**

Customer Service Representative | Jun 2022 – Jan 2023

- Handled high-volume customer interactions in an e-commerce environment (orders, billing, returns, product inquiries)
- Maintained strong Customer Satisfaction (CSAT) and resolution KPIs
- Escalated complex issues to appropriate teams, ensuring timely resolution and customer retention

---

**TECHNICAL SKILLS**

**Cloud Platforms:** AWS, Google Cloud Platform (GCP), Microsoft Azure, Oracle Cloud Infrastructure (OCI)

**Infrastructure & DevOps:** Linux, Docker, Amazon ECS, Nginx, CI/CD, Git/GitHub, AWS CloudFormation

**Programming:** Python, Dart, Kotlin

**Databases:** PostgreSQL, MySQL, SQLite

**Tools:** Jira, ClickUp, Trello, Microsoft 365, Google Workspace

**Methodologies:** Agile, Scrum, Kanban

## CERTIFICATIONS

### **AWS Certified Solutions Architect – Professional (SAP-C02)**

- November 21, 2025 - November 21, 2028

### **AWS Certified Advanced Networking – Specialty (ANS-C01)**

- September 27, 2025 - September 25, 2028

### **AWS Certified AI Practitioner (AIF-C01)**

- October 17, 2025 - October 17, 2028

### **AWS Certified Solutions Architect – Associate (SAA-C03)**

- November 21, 2025 - November 21, 2028

### **AWS Certified Cloud Practitioner (CLF-C02)**

- January 25, 2025 - January 25, 2028

### **Oracle Cloud Infrastructure AI Foundations Associate (2025)**

- October 27, 2025 - October 27, 2027
- 

## PROJECTS

### **AWS Disaster Recovery Implementation – Infrastructure as Code**

- ([github.com/angelojoe20/Disaster-Recovery-for-AWS-CDK.git](https://github.com/angelojoe20/Disaster-Recovery-for-AWS-CDK.git))
  - o Designed DR architecture using AWS DRS, defined RPO/RTO, automated infra via CloudFormation, and tested failover scenarios

### **VendoMed – OTC Medicine Vending System**

- ([github.com/Ruoneeee/vendomed\\_flutter.git](https://github.com/Ruoneeee/vendomed_flutter.git))
  - o Designed system integrating RFID, payment validation, and inventory management with scalable architecture

### **Library Management System**

- ([github.com/angelojoe20/Library-Management-System.git](https://github.com/angelojoe20/Library-Management-System.git))
    - o Developed inventory management system with SQLite database and backend logic
- 

## EDUCATION

### **Bachelor of Science in Computer Engineering – Pamantasan ng Lungsod ng Maynila**

- Graduated Cum Laude
- Active in AWS Cloud Club, GDSC, and multiple tech communities

### **AWS re/Start Program – Edukasyon.ph (AWS, Linux, Networking, DevOps)**

- Completed full-time cloud computing and IT fundamentals bootcamp
- Specialized in AWS Cloud, Linux, Python, networking, security, and DevOps fundamentals

### **STEM – Polytechnic University of the Philippines**

- Graduate With High Honors
- Built foundational skills that supported the Engineer Course

## **LEADERSHIP & COMMUNITY**

### **Python Philippines - Kaizend [May 2024 - Present]**

- **Finance Committee**
  - Managed budgeting and financial support for community-driven initiatives.

### **Amazon Web Services Cloud Clubs Philippines [September 2024 - June 2025]**

- **Partnership Officer**
  - Facilitated collaborations between AWS and student communities to drive cloud learning.

### **Amazon Web Services Cloud Clubs - PLM [February 2024 - June 2025]**

- **External Relations Lead**
  - Organized cloud-related events, established sponsorships & partnerships, and promoted cloud education initiatives.

### **Google Developers Student Club - PLM [October 2021 - June 2025]**

- **Core Member, External Relations & Cloud Googler**
  - Assisted in organizing developer events and cloud-related activities, fostering engagement within the tech community.
  - Managed external relations, collaborating with industry partners and organizations to secure sponsorships and resources for student-led initiatives.
